how they affect their targets. Case Study: What's Wrong With Timothy? Case studies are created by the University of Buffalo as teaching aids for learning medicine, case studies are presented as mysteries for students to solve.

Anatomy & Physiology - Endocrine System

The endocrine system has no ducts at all. It

Read Online Endocrine System Study Guide Key

relies on the bloodstream to transfer all of the hormones it produces to different parts of the body. The exocrine glands are different from the endocrine glands, because they excrete hormones by way of a duct to the external environment.
