ArtScience Museum - Exhibitions & School Programmes In ...

We do experiments in art and design at frontiers of science, and have since the opening of Le Laboratoire in 2007 in Paris. Over these years we have done 24 experiments, leading to works of art and sensorial design now in museums and selling in stores. We started the "FoodLab" in Paris as a kind of subterranean 'club' restaurant where our sensorial designs could come to life. When Le ...

Art the Science | A Canadian non-profit SciArt organization.

Science and art are often regarded as distinct - either a person can't be serious about both or an interest in one must relate somehow to work in the other.

Art + Science - Stanford Arts

There are two paramount differences between art and science. The first is that art is subjective while science is objective. The second is that art expresses knowledge, most often in the form of ...

What is the difference between art and science? | eNotes

Science and art are often viewed as opposites. One seems to be driven by data while the other by expression and creation. But, in reality, they're more alike than we think. They share a common thread through inquiry and questioning. At their core, artists and scientists are inventing, exploring, and discovering. It just looks a [...]
